

Requirements for an AutoCad drawing

NO!

- No measurements at all
- No scale

Insufficient for a AutoCad drawing

A sketch like this is causing many phone calls or emails and will delay the whole project!

We need...

- Boiler size and required transport system
- What kind of fuel
- Dimensions of boiler house incl. height
- Dimensions of fuel store incl. height
- Width of wall
- Position of chimney
- Dimension and position of the doors and windows
- If there is a difference in level between fuel store and boiler house
- Fuel delivery into the fuel store
- Any information we get can be helpful!

Yes!

All the information needed for a drawing can be found in this sketch.
